

Modern Hand to Hand Combat: Ancient Samurai Techniques on the Battlefield and in the Street (Hardback)

By Hakim Isler

Tuttle Publishing, United States, 2015. Hardback. Book Condition: New. 232 x 167 mm. Language: English . Brand New Book. Modern Hand to Hand Combat: Ancient Samurai Techniques on the Battlefield and in the Street recognizes the lawless nature of today's battlefield. Hakim Isler, an Iraqi war vet, knows from his own experiences that in an urban combat setting, the players, the equipment, and the stakes are very different from those found in an MMA octagon, the boxing ring, or the martial arts dojo. Isler combines the lessons learned as a member of special ops with his training in the martial arts to create a system of combat that accommodates the heavy armor and equipment carried by the modern soldier. Based primarily on samurai techniques over a millennium old, Isler's system Battlefield Proximity Combat is an effective answer to the unique needs of the modern warfighter and military defense. Today's ground soldier can carry up to 125 pounds of equipment and personal armor during any typical mission. The trade off for this protection is a lack of mobility. In a close proximity situation the modern combat soldier is at a decided disadvantage compared to his more nimble opponent....
