Ecuador and the Galapagos Islands

By David L. Pearson

Interlink Books. Paperback. Book Condition: New. Paperback. 475 pages. Dimensions: 8.5in. x 5.6in. x 1.4in. Travellers to Ecuador want to experience tropical forests and other stunning habitats and catch glimpses of exotic wildlife: toucans and parrots, monkeys and anteaters, frogs and toads, crocodiles and snakes. On the Galapagos Islands, curious visitors want to see with their own eyes the exotic, unique, tame wildlife that stimulated Charles Darwin to formulate the theory of evolution. In this book is all the information you need to find, identify, and learn about Ecuador's magnificent animal life. The authors, professional biologists, selected for color illustrations more than 500 of Ecuador's most common insects, amphibians, reptiles, birds, and mammals -- the species you are most likely to see. In one easy-to-carry, entertainingly written, beautifully illustrated book, you will have as constant companion on your journey: - Identifying and location information on the most frequently spotted animals - Up-to-date information on the ecology, behavior, and conservation of the families of animals to which the pictured species belong - Information on Ecuador's habitats and on the most common plants you will encounter - Brief descriptions of the regions most frequently visited parks and reserves. This item ships from multiple...

Reviews

An incredibly great book with perfect and lucid answers. Better than never, though I am quite late in starting to read this one. You will not sense monotony at whenever you want of the time (that's what catalogues are for relating to if you question me).

-- **Nannie Lindgren Jr.**

Comprehensive guide for pdf fanatics. It is filled with knowledge and wisdom. It is extremely difficult to leave it before concluding, once you begin to read the book.
