A review from the Journal of Education, Volume 22: THIS book is primarily intended for the use of the teacher of deductive logic, and may very well be made an adjunct to any good handbook on the subject. It consists of three hundred well chosen passages from standard literature, which are to be examined and considered from the point of view of logic. It seems to us well suited to its purpose, and very likely to add much liveliness to the lessons. From the PREFATORY NOTE. IN the following collection, illustrating fundamental processes of Deductive Logic, with examples taken from general literature, the compiler has had in view, primarily, the needs of teachers of the subject. Many of the manuals in common use present those processes (particularly the syllogism) in the form of what Dr. Venn aptly terms prepared material; and the instructor consequently finds difficulty in convincing his hearers that the logic of the class-room bears any relation to thought as met with in ordinary discussion and in books. Thus, without attempting a comprehensive treatment of rhetorical...
