CASSANDRA, CHANTING: AN ELECTION INSIDER S NIGHTMARE (PAPERBACK)

AUTHORHOUSE, United States, 2008. Paperback. Book Condition: New. 224 x 150 mm. Language: English . Brand New Book ***** Print on Demand *****.At the center of Cassandra, Chanting is a plot to steal the next American presidential election. Written by an election world insider who must remain anonymous, the novel exposes in authentic and chilling detail just how vulnerable our electoral system is today. It also reveals how warnings by experts are going unheeded and leaving Americans dangerously exposed, just as warnings by the mythological Cassandra went unheeded, resulting in the destruction of ancient Troy. As the novel opens, plotters travel to America and seduce and recruit government officials in order to gain access and then manipulate in undetectable ways the computer programs that control voting systems. The subversive group targets weak leaders and government bureaucrats whose thirst for power or other gain makes them susceptible. They find many eager takers. Meanwhile, the National Institute of Standards and Technology in D.C. has assembled a team led by former Navy SEAL Carl Martello to work on federal election oversight. He is joined by Angela Elanthos, brilliant at computers and decoding, and soon they become suspicious of one of the largest voting companies controlling millions of voting machines, certain they have rigged their programs. Despite government inertia and very different backgrounds, Carl and Angela race against the clock to uncover the high-tech complexities of a plot to fix the outcome of the election. As the novel so alarmingly reveals, the means by which the democratic institutions can be sabotaged within the voting process are all too real, as is the public s continuing indifference to what could happen. Cassandra, Chanting is a gripping tale telling us why we must be ever diligent in protecting our institutions against those who exercise no restraint...
